

## Wehbba

Systematic Sounds is a brand new imprint established by Systematic's master mind Marc Romboy and Jürgen Driessen with the vision to serve musicians high class sample packs of the best and most experienced techno house producers around the globe.

After the highly assessed first release, Robert Babicz's "Sound\_Signature" pack which instantly hit the top 10 of the Beatport Sound selling list, this is now already the second bundle release and it was produced by a guy which Marc considers as one of the best current tech house producers, Wehbba from Sao Paulo, Brazil.

Besides countless strong releases with his buddy Christian Smith he has convinced the dance floors with a bunch of top-notch remixes for the likes of Robert Babicz, Joyce Muniz and Chicago's house figure head Roland Clark and entered the exclusive circle of Boiler Room artists by playing a legendary set in Sao Paulo along with Stephan Bodzin and Marc Romboy in summer 2014.

For the "Sound\_Signature" pack Wehbba moved back from the daily business in order to create an outstanding collection of typical sound samples in the best studio of Sao Paulo, the Red Bull Station Studio and also his own studio. There he filed a long time on sounds from machines like the brand new Moog Sub 37, the Access Virus TI and the Dave Smith Tetr4, three units which are significant for his sound aesthetics. Besides this he added plenty of Wehbba-characteristical recordings as grooves, funky techno bass lines and one shots!

Marc Romboy: "I'm always impressed how Wehbba reconciles techno, groove, warmth and dynamic inside a track. With this pack I have approached his secret a little bit and I can only highly recommend this pack to young producers who are interested in sharing and learning about his philosophy to create real tech house."
